

Harbor Growth Fund III

Growth equity for European software companies

For Institutional Investors Only

Presented by Northbridge Advisors · March 2026

Disclaimers

This presentation is furnished on a confidential basis to institutional investors for discussion purposes only and does not constitute an offer to sell or a solicitation of an offer to buy any security, which may be made only through the Fund's offering documents. All investments involve risk, including the possible loss of the entire amount invested. Interests in the Fund are illiquid and there is no secondary market.

Certain statements in this presentation are forward-looking statements, including targeted returns and projections. Such projections may not be realized. They are based on assumptions that may prove wrong and are not guarantees of future performance. Past performance is not indicative of future results; the performance of Fund I and Fund II may not be repeated by Fund III.

Preferred returns are part of the deal structure and indicate the sequence of how distributions (from operations or a capital event) are disbursed. They are not guaranteed and should not be considered a financial projection. Actual cash flow projections and distributions from the sponsor may differ from the preferred return.

Executive summary

- We believe European growth-stage software offers attractive risk-adjusted return potential over the fund term.
- Fund III targets 15 to 20 investments of EUR 15 to 40 million in companies with EUR 10 million or more of ARR.
- The team has worked together for nine years across Fund I and Fund II.
- We seek board seats and information rights in every investment.

Investment team

Clara Voss, Managing Partner

22 years in software investing; previously partner at a pan-European growth fund with EUR 2.1 billion of assets under management; 14 exits including two IPOs.

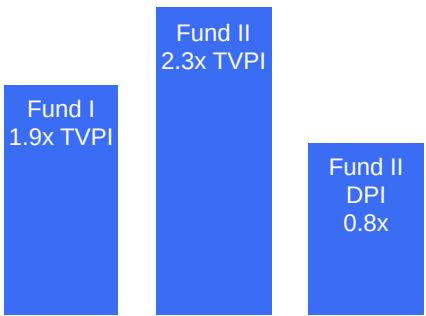

Tomás Reyes, Partner

Former CFO of a listed SaaS company; 30+ transactions reviewed per year; MBA INSEAD.

Ines Duarte, Principal

Eight years at a Big Four transaction services practice; 60+ due diligence engagements.

Track record: Fund I and Fund II

Source: audited financial statements of Fund I (2014 to 2022) and Fund II (2018 vintage), as of 31 December 2025. Net of fees, expenses and carried interest. Past performance is not indicative of future results.

Market

European software companies raised EUR 34 billion of growth capital in 2025, a 12% increase on 2024.

We believe the mid-market remains under-served by growth investors relative to the United States.
